

Lots: The Diversity of Life on Earth

Davies, Nicola

SINOPSI

Winner of the Margaret Mallett Picture Book Award, as part of the English 4-11 Picture Book Awards. There are living things everywhere: the more we look, the more we find. There are creatures on the tops of the tallest jungle trees, at the bottom of the coldest oceans, even under the feathers of birds and in boiling volcanic pools.

So how many different kinds are there? One, two, three ... lots! From the award-winning team behind *Tiny: The Invisible World of Microbes* comes *Lots*, a beautifully illustrated introduction to the concept of biodiversity for younger readers. With words from Nicola Davies and exquisite artwork by Emily Sutton, this groundbreaking book is certain to enchant and inspire children.

"Clear, direct, involving text, coupled with vivid, delicate illustrations make for a truly special work of non-fiction." - Guardian...
