

## In Other Words: A Coursebook on Translation, 4ed.

**Baker, Mona**

### SINOPSI

In Other Words has been the definitive coursebook for students studying translation for more than three decades. Assuming no knowledge of languages other than English, it offers a practical guide based on extensive research in areas as varied as lexis, grammar, pragmatics, semiotics and ethics. It thus provides a solid basis for training a new generation of well-informed, critical students of translation.

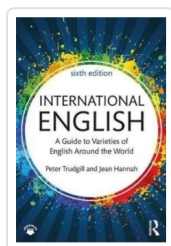

The fourth edition builds further on linguistic theory and the literature on ethics to guide trainee translators through key decision-making processes. Each chapter explains core concepts, identifies potential translation challenges and offers a range of strategies for addressing them, supported by authentic examples from various languages and genres. Building on its established foundation, this edition breaks new ground by incorporating contemporary translation challenges across digital platforms, including social media, websites and patient information materials, offering fresh perspectives on translating popular science, tourism content and museum documentation.
