

## The God of the Woods

**Moore, Liz**

### SYNOPSIS

A masterful literary thriller. A modern classic in the making: an epic novel with the scope of Maggie Shipstead, the readability of Curtis Sittenfeld and the thriller energy of *The Secret History*.

Some said it was tragic, what happened to the Van Laars.

Some said the Van Laars deserved it. That they never even thanked the searchers who stayed out for five nights in the freezing forest trying to help find their missing son.

Some said there was a reason it took the family so long to call for help. That they knew what happened to the boy.

Now, fifteen years later, the daughter the family had in their grief has gone missing in the same wilderness as her brother. Some say the two disappearances aren't connected.
