

Vancouver Storm 4: Gloves Off

Archer, Stephanie

SINOPSIS

The next spicy, laugh-out-loud hockey romance from TikTok sensation Stephanie Archer (Vancouver Storm 4).

The only way to get my inheritance? Marry Alexei Volkov-the grumpiest enforcer in the NHL, a brutally handsome jerk, and the last man I'd ever fall for. In public, we act as besotted newlyweds, but in private, we're at each other's throats. He's competitive, arrogant, and surly.

The guy's never cracked a smile in his life. He's jealous of my ex, he glares at my high heels, and insists he's not attracted to me. He's only marrying me for citizenship.

Fighting with Alexei is more fun than expected, though, and beneath his grouchy exterior, Alexei is surprisingly caring, protective, and generous. He cooks for me and worries about my safety. He sends me flowers with secret meanings and spends way too much money on me....
